

You Got A Way

You got a way about you baby
You got a way about you baby
And I guess I really like your way

It wasn't always like this baby
It wasn't always like this baby
But I've really come to liking your way

I like the way you don't say goodnight
And how you want to keep holding me tight
I like it when you stay with me
You pull up close so I can see your eyes
Your eyes, your eyes, your eyes
I can see the lovelight in your eyes

You got a way about you baby
You got a way about you baby
Now I know I really love your way

You got a very special way about you
Now I know I can't live without you
And I'd like to always be in your way
And I'd like to always be in your way

I like the way you don't say goodnight
And how you want to keep holding me tight
I like it when you stay with me
You pull up close so I can see your eyes
Your eyes, your eyes, your eyes
I can see the lovelight in your eye
